

U-Star's Worktop Freezers are constructed of heavy duty stainless steel both inside and out, making them strong and durable enough to survive in any kitchen environment. The frozen storage and convenient workspace help streamline the food preparation process. These units feature a backsplash wall that prevents ingredients and supplies from falling behind during slicing, dicing, assembling, mixing and other food preparation tasks. They operate with eco-friendly R290 refrigerant that protects the environment. The frozen storage space below the worktop is readily accessible through the doors, and features heavy-duty shelves with a roomy interior to organize ingredients. These models are ETL Listed and ETL Sanitation. They are backed with a 1 year warranty on parts and labor and a 5 year warranty on the compressor.

### Product Features

- Convenient stainless steel worktop surface
- Stainless steel exterior with backsplash wall
- Environmentally-friendly R290 refrigerant
- Temperature range -8 to 0 degrees Fahrenheit
- Adjustable heavy-duty PVC coated shelves
- Electronic control system makes it easy to adjust temperature point setting and defrost frequency
- Preinstalled heavy-duty casters, (2 braking and 2 non-braking) provide mobility for easy cleaning and maintenance
