TS Series: Reach-In Solid Half Swing Door Stainle	ess Steel Freezer with Hydrocarbon Refrigerant
on tour	TS-23F-2-HC
	True's TS series is the choice for the exclusive stainless steel commercial application.
Г	Designed using the highest quality materials and components to provid user with colder product temperatur lower utility costs, exceptional food and the best value in today's food se marketplace.
L	Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydro carbon refrigerant that has zero (0) o depletion potential (ODP), & three (3 global warming potential (GWP).
	 High capacity, factory balanced refrigeration system that maintains - (-23.3°C) temperatures. Ideal for both frozen foods and ice cream.
Г	Stainless steel interior and exterior fr sides and doors. The very finest stain with higher tensile strength for fewe and scratches. Matching aluminum
	Adjustable, heavy duty PVC coated g shelves.
L	 Positive seal self-closing doors. Lifeti guaranteed door hinges and torsion closure system.
	Automatic defrost system time-initia temperature-terminated. Saves ener consumption and provides shortest possible defrost cycle.
	Bottom mounted units feature:
	No stoop" lower shelf.
	 Storage on top of cabinet. Compressor performs in coolest, mo grease free area of kitchen.
- U	Easily accessible condenser coil for

TS Series: Reach-In Solid Half Swing Door Stainless Steel Freezer with Hydrocarbon Refrigerant

True.®

STANDARD FEATURES

DESIGN

- True's solid door reach-in's are designed with enduring quality that protects your long term investment.
- True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, lower utility costs, exceptional food safety and the best value in today's food service marketplace.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydro carbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains -10°F (-23.3°C) temperatures. Ideal for both frozen foods and ice cream.
- State of the art, electronically commutated evaporator and condenser fan motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Bottom mounted condensing unit positioned for easy cleaning. Compressor runs in coolest & most grease free area of the kitchen. Allows for storage area on top of unit.
- Automatic defrost system time-initiated, temperature-terminated. Saves energy consumption and provides shortest possible defrost cycle.

CABINET CONSTRUCTION

- Exterior Stainless steel doors, front and sides. Matching aluminum back.
- Interior Stainless steel liner and floor.
- Insulation entire cabinet structure and solid doors are foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with 4" (102 mm) diameter stem castors locks provided on front set.

DOORS

- Stainless steel exterior and liners. Doors extend full width of cabinet shell. Door locks standard.
- Lifetime guaranteed recessed door handles. Each door fitted with 12" (305 mm) long recessed handle that is foamed-in-place with a sheet metal interlock to ensure permanent attachment.
- Positive seal self-closing doors. Lifetime guaranteed door hinges and torsion type closure system.
- Magnetic door gaskets of one piece construction, removable without tools for ease of cleaning.

SHELVING

- Three (3) adjustable, heavy duty PVC coated gray wire shelves 22 7% "L x 23 ¼ "D (582 mm x 591 mm). Four (4) chrome plated shelf clips included per shelf.
- Aluminum shelf support pilasters. Shelves are adjustable on ½" (13 mm) increments.

LIGHTING

 Interior lighting -safety shielded. Lights activated by rocker switch mounted above top doors.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Exterior solar, digital temperature display.
- Rear airflow guards prevent product from blocking optimal airflow.
- NSF/ANSI Standard 7 compliant for open food product.

ELECTRICAL

 Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1 NEMA-5-15R

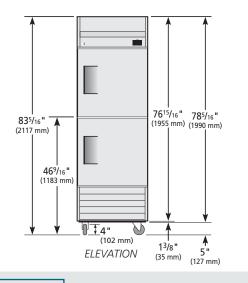

OPTIONAL FEATURES/ACCESSORIES

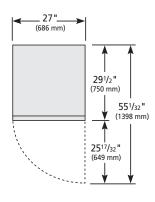

- Upcharge and lead times may apply.
- 🖵 230 240V / 50 Hz.
- □ 6" (153 mm) standard legs.
- □ 6" (153 mm) seismic/flanged legs.
- Alternate door hinging (factory installed).

Back

- Novelty baskets.
- □ Additional shelves.
